PRODUCT GUIDE

MORE THAN JUST SALT & CLAY.

In 1958, two brothers turned their Utah farm into something bigger. They had tapped into an ancient deposit of salt and clay and realized they had found two rare resources: a salt with 60+ trace minerals crystallized inside each granule, and a thick layer of volcanic ash--a mineral-rich supplement unlike any other clay.

Six decades later, Redmond Minerals has expanded from that original farm. However, we still haven't forgotten our founder's vision to keep things natural and put people before profit in order to make a contribution that matters.

DEALER FAQ

FOR YOU

Earthpaste

You don't need artificial ingredients to create the perfect natural toothpaste. Redmond Earthpaste and Earthpowder are made from nature's perfect polisher to get you everything you expect from a toothpaste without any glycerin, fluoride, foaming agents, or artificial coloring. You won't believe how smooth your teeth will feel!

Check with your distributor to order Earthpaste.

Earthpowder

Earthpowder is the natural experience your mouth has been missing. Our recipe relies on unique, high-desert bentonite clay paired with tooth-friendly non-GMO xylitol¹ and delicious wild-harvest essential oils.

Check with your distributor to order Earthpowder.

Real Salt

Real Salt is the only brand of unrefined sea salt mined in America, with a complete blend of minerals and an unique flavor that is perfect for every meal. Real Salt is unlike any salt on earth – once you try the Real Salt taste test, you will understand why no other salt sells better in America's health food stores.

Check with your distributor to order our Real Salt Products.

Redmond Clay

Redmond Life has been selling Redmond Clay in health food stores since the 1970's, but people have been using bentonite clay for thousands of years. Redmond Clay is a unique high desert bentonite, high in both calcium and sodium.

Check with your distributor to order our clay products.
